Veteran students should not have to suffer any additional hardships following a disaster, and focus on their recovery. That’s why the VA is committed to easing the burden as much as possible. For Post 9/11 students, attendance is considered continuous for the purpose of stipend payments. In the event that the school is closed for a period of time,

Vocational Rehabilitation and Employment, and Employment and Employee Adjustment Allowance payments are extended for two months for the recipient.

Following a disaster, the VA can assist you if you encounter some challenges with meeting your mortgage terms. The VA can assist you with this by issuing 90 day moratoriums on foreclosures or waivers for late charges for mortgage payments. Also, the VA may be able to work with your lender to apply pre-payments already made to your upcoming mortgage payment.
